To Whom It May Concern:

* I am commenting that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients.

* I ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections.

* I also ask you to reconsider your definition of religious employer and offer an authentic conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees. The definition of "religious employer" in the regulation is so narrow as to only include churches, but will still mean that a host of businesses and organizations that have conscience objections will be required to choose between either violating their conscience or not being able to offer employees health insurance.

* I object to being forced by the federal government to offer or subsidize contraceptives and sterilization services, especially when some of these drugs can take the life of early unborn children. No American should be forced by the federal government to essentially subsidize services they object to.

Sincerely,
Carla Hubbard
